

The 2008 Transcona Men's Open

proudly supports

The Transcona Golf Club is fully aware the future of golf begins with the development of a solid junior golf program. The youth of today will form the foundation of the club's own future. With that in mind, the Transcona Golf Club is determined to bring out the best in our junior golfers by offering support for their development, both in the sport and academically.

The Objectives of the Transcona Junior Golf Program is to:

- Bring more youth into the game
- Make golf more accessible and affordable
- Provide a long term path of skill development
- Generate awareness and interest in the game
- Provide competition and teach sportsmanship
- Foster team spirit and camaraderie

In 2007, the Transcona Junior Golf Program included over 70 junior age players. These players participated in clinics, club events, provincial events and include participation on local High School golf teams.

Funds raised from the Putting Contest will go towards supporting the junior golf program through promotion, prizes, instruction and scholarships.
